That's with 24/7 coverage that it was not rigged. With social media gaming search, etc. And the polls do not accurately reflect what I believe. 1. That like the pre election polling, people are♦ talking. 2. Almost unanimous republican belief election was rigged. I estimate 95%. The difference between 68 & 95% includes people not talking and people who are simply defeated and think it doesn't matter because nothing going to change. 3. Dems at 16% doesn't matter. I'm surprised it♦s so high. The fact is they don't care if Biden won because it was rigged. But I believe if a case is made, the centric dems will come over and this number can climb into the 40♦s. 4. Independents at 33% is really strong. 1/3 of independents know the election was fixed DESPITE being told repeatedly by every single news source including social media that it was♦the most secure election in history♦ and so on. ***** My advice: 1. The lawyers must stop with over the top talk that they don't back up. 2. They should simply say, ♦Trump will be re-elected. He won the election. We will present our case. This is going to the SCOTUS♦ 3. People are noticing the firing of certain high profile people. The media spin is that these are people who won't take a Trump ♦loyalty pledge♦ (which is ridiculous on so many levels). But, I think it presents an opportunity for the president to jump in and use the attention from the media to say, ♦the media will have you believe these folks have been fired for lack of loyalty to me. No! They have been fired because of their lack of loyalty to you, the American people, and to the US Constitution♦ 4. About that (#3). Barr, Durham have produced noting. For all the spying, impeaching, leaking, rioting, and now election interference - nobody has been punished. This is why the average American has given up hope. Despite complete confidence in the president and belief that he is fighting on behalf of America against a dishonest & even illegal democratic-socialist party, there has been zero evidence that he will prevail.... And that alone is bad news. The people need hope restored. Soon. Or it WILL BE a dark winter (and not because of the communist virus but because the communists will have won).

The intense pressures you and our President are now experiencing are more intense than Anything Experienced (but I only felt a fraction of it in 1991). At stake: truth, evidence, facts and America. Or will lies win?! I know you all are feeling an unbelievable negative intensity if you drink in media or weak people/messages. Look at a calendar and set out the plan for getting truth, evidence out by dates certain. Sounds like Sidney and her team are getting inundated with evidence of fraud. Make a plan. Release the Kraken and save us from the left taking America down? Suggestion: You need to buck up your team on the inside, Mark. The lower level insiders are scared, fearful or sending out signals of hopelessness, vs an awareness of the existential threat to America right now. You can buck them up, strengthen their spirits. Monica Crowley may have a sense of this fr her Nixon days. ?? Northern VA Deplorables and others seem to be planning pop up spontaneous sign wavings this am for Stop The Steal! ??? See 2 min Rush recording. Personally, I'm not a big fan of the emotion the caller showed. But, the point is valid and very frustrating. That point being, our Republican Party is failing the people who support it. Trump won the election. The cheating was massive. Every single voter is being cheated along with the president. Yet, where is the outrage from our senators and congressmen? Where is the solidarity? Where is the we demand a full audit from every republican standing arm-in-arm. I write 7 figures \$\$\$ this election cycle for republicans across the country from statehouse to the WH and everyone in between. I'd like to think the candidates I support would not accept the alleged cheating without a full audit. Politically, it will pull our party closer together. Without it, 2022, which should be massively in our favor after what's happened, could flip as republicans who don't stand with Trump now will all get primaried. Not much I can do from here but tell you the anger is real and the demand for justice is real and the disappointment in our party is real.

11/21/2020 14:03	Nayeli Marin [REDACTED] 5011)	Incoming	Message	No	Nayeli Marin [REDACTED] 5011)	Mark Meadows [REDACTED] 2544)		This video is tedious, but the bottom line is this is his theory as to how the Dominion algorithm worked. https://rumble.com/vbas2t-smoking-gun-dominion-transferring-vote-ratios-between-precincts-in-pa.-by-e.html . Summary: "The Dominion System isolated a "Flip Set" from the expected vote count and the expected percentage. It then splices the Flip Set into multiple "ratio sets" and assigns them to precincts throughout the day. Once a particular "ratio set" receives the votes it needed, it releases that set, and then Dominion injects it into the city wide count. To hide its trail, Dominion reassigns the same "ratio set" to different (random) precincts throughout the day, so that the same precinct doesn't keep getting the exact same ratio (or the same set of precincts). During a particular period of time while a precinct is selected, it gives Trumps an EXACT NUMBER of votes, it gives Biden a MINIMUM number of votes, and splits the small remainder to a third party or to Biden (via random assignment). This explains why Jo Jorg got so many votes in every precinct (I'm a Libertarian and I know very few libertarians who voted for Jo this year, due to the importance of this monumental election).
11/21/2020 14:07	Nayeli Marin [REDACTED] 5011)	Incoming	Message	No	Nayeli Marin [REDACTED] 5011)	Mark Meadows [REDACTED] 2544)		Basically, the system was set up so that Biden would make up the difference in votes beginning the early morning of Nov 4. There were preset ratios of Trump to Biden votes to be flipped for groups of precincts. But the system repeatedly rolled the ratios from one precinct to another within the group to avoid detection and suspicion. Usually there was less than 5 mins between precincts suddenly changing to the ratio from the previous precinct.

There are a lot of people who want to help and want assurance that there's a battle plan. I would sure love to know what to communicate to them to give them hope but no one has communicated with me either. People are hearing some Republicans like Toomey and Cornyn distancing themselves from Trump and are losing faith and hope because they don't perceive there's a strategy or an organized fight. Other Republicans, especially in Georgia not only doing nothing but seemingly helping the Biden team. Is there any way someone on the inside can get me a short briefing? I know you're busy but how about John Fleming? Praying for all of the team and want to help. Brian

URGENT He hasn't shown anyone else but Mark Davis what's coming and it's nuts. A side benefit it lets thousands of tiktok and Twitter "vote detectives" push VOTER BALLOT (plat (house) level data directly into their own Google My Maps in 2 clicks. How many ballots at biz addresses in your county? Go investigate. How many ballots from the nursing homes in your precinct? Go investigate. 150 ballots from a run down 8 plex down your street? Go investigate. Vote Detective is Sunlight Foundation / Open Secrets but for catching voter fraud. This is for all the marbles. The biggest most respected data guy in GA went through this new platform finished Sunday and said WOW. We don't have any of this. It serves the masters The cheating can't continue in the Senate run offs and any future elections. As I said this is wild stuff! I will send you some of the intel that was sent to me. There is no way in Georgia that the down ballot out performed the President. I'm starting to think the 40K illegal votes in GA we found is more rock solid and unarguable than anything else we've seen. 122k moved across county lines 30+ days before the election and we're no longer registered to vote under GA law. GA SoS had a serious notice on their page: If you moved and don't register to vote in your new county you are not legal to vote. 82K followed the law. 40K broke the law. This is a clear violation of the Equal Protection due the 82K and every other person not registered to vote 30 days before GA election. As GA too election mind said, it's open shut case.

Legislative leaders could pledge to abide by the results, no matter what. If state officials refuse that recount, the legislature would then act under the constitution, selecting the slate of electors. Idea is so simple that the public might actually recognize the credibility of either result. The public would know that the recount was being done under the normal process for weeding out fraudulent absentee ballots/signatures. The public would also recognize that state officials refusing to do that would call into question the vote itself, and the legislative action would have credibility for a majority of people. Stop laughing :-) I'm not kidding though♦ The Trump legal team has made a joke of this whole thing♦ They have no apparent sense of the simplicity that is needed at this moment. I really believe the question of absentee ballot authorization is the only avenue to credibly ascertaining anything close to the actual vote in the swing states. Without something this simple, I think you and I would agree there is no way any legislature is going to act on the issue of electors, regardless of the fact that these are precisely the kind of circumstances that led the framers to include that provision in the Constitution. Who should we call on team Trump? No, I won't be billing anyone :-) however, I may bill them for all the exercise classes I'm going to have to take to alleviate the anxiety of watching their efforts these last few weeks. What do you think? One last ditch effort? Leave it to a couple of former executive directors from North Dakota to solve this thing! ~Drew

Order an independent counsel to immediately seize the Dominion voting machines for review. 2. Order an independent counsel to immediately review the election interference by MSM and tech. 3. Remove section 230. (Wondering if it was removed, then class action lawsuit couldn♦t be filed against tech companies and executives/BOD♦s for their interference. 4. Order full disclosure of potential conflicts between political parties, their candidates, their staffers, and MSM and tech executives. This would expose the tangled web between spouses, family members, former staffers, etc that cross pollinate between dems and these companies. If relationships with foreign governments is required, why not with these companies? It shouldn♦t be allowed. Again... I♦m not a lawyer. 12/4/2020 6:30	Marty Davis [REDACTED] 4848)	Incoming	Message	No	Marty Davis [REDACTED] 4848)	Mark Meadows [REDACTED] 2544)		Senators Paul, Graham and Thune, Congressman Emmer This is Marty Davis from Minnesota. I am pleased to have a relationship with each of you. I've watched the state legislative hearings in Michigan, Arizona and Georgia as well as kept close to the various activities in Wisconsin, Pennsylvania, and Nevada. I watched last evening as state legislators in Georgia discussed the crisis they have in their state. The egregious, unconstitutional mitigation measures in Georgia's election houses and even the unmitigated activities that surely validate that their election results are NOT AT ALL ACCURATE! These are activities they are acknowledging right now on live TV and throughout these recent days of hearing. This is similar to the other swing states mentioned above. Why why gentlemen are we not activating all avenues of investigation and fighting to ensure exhaustive investigations occur immediately. FBI, DOJ, state and federal legal enterprises. All state legislatures et al! As have mentioned to each of you individually where are the Ted Kennedy's and Joe Lieberman's righteously protecting our party and ensuring our President gets a fair result. Where is our Woodward and Bernstein? Where is our Judge Sisk? Where is our Water Cronkite? We generously and legally invested upwards of \$3M in support of our Republican candidates this past cycle! I raised \$7M+ yes seven million dollars [and took a lot of hit for it in my business from anti-trump now former customers of my business] all in just one afternoon at my home for the Republican nominee, President Donald Trump. Donald Trump, our party's President, our nation's President! I feel very strongly that few of you in your peer group, who actually sit there should care passionately about the efficacy and integrity of our elections and the fairness to our donor investments that expect a fair outcome are protecting any of this whatever. Few of our political leaders are fighting it all for election fairness and integrity on all of our behalf! We donated a helluvva lot of money and took great risk with our efforts and we expect our hard-earned capital that WE GAVE TO THE PARTY to allow us to compete fairly and equitably in the election process. We are certain the election is being stolen and therefore so is our country! I have raised \$2M one evening in my home for our 2012 Republican nominee, Gov. Romney last, we took our wounds and went back to work! This is not the Janet! We can all live with loss, we really can! We cannot live with this unfair inaccurate reporting of the actual voice of legal voters in America. THE FAIRNESS OF THE 2020 ELECTION DID NOT ENSURE AN ACCURATE AND LEGAL RESULT HAS BEEN ACHIEVED! We cannot be righteous about our democracy going forward with this reality! NO ONE WITH SUBSTANCE OR POWER [beyond POTUS inner circle] LEGISLATIVELY LEGALLY AND OTHERWISE! We are doing much of a damn thing to really fight, support and protect our President and his right to a fair and square election! As importantly we need to protect POTUS donors and the Republican party donors who supported this effort, with our hard-earned money, that we received a fair and accurate election! The ineptitude of the election process has in effect, ensured that our money, too is being stolen! They cover Ivanka Trump's hotel charges at Trump Tower with all kinds of legal and press bulletins, but we allow them to ignore the travesty that is going on with the elections in many of our states...I could go on for days with examples of such hypocrisy. We know mail-in voting and ballot harvesting etc would be ripe with theft and inaccurate governance at best and flooded with substantial fraud at worst! Why? Why would you guys allow this to happen? Why are you allowing this to happen? This election result is inaccurate, unethical, and had intentional and unintentional defects and huge flaws that have resulted in the voting process and the vote count to be greatly flawed and very much inaccurate. Why are we standing on the sidelines allowing this to happen and allowing it to continue to happen? News media ignores it! Legal institutions ignore it, the party politicians and leaders ignore it! What the hell is going on? And yet you want us to give more money into Georgia for the Senate race? Really? Stand up and fight, please! This is wrong! I've reviewed it with open-mind and fair study, as many have.... STAND UP AND FIGHT! GENTLEMEN! This election must be fully analyzed and accounted for by ensuring accuracy brought to bear upon it! THAT IS WRONG! STAND UP AND FIGHT! PLEASE! Marty Davis

Guys, another late night / early morning. Besides my responsibilities of father, husband and business onset, I've taken in the routines of journalist, detective, prosecutor and politician. It makes for a long day. As you two know from personal experience, I'm spending hour upon hour researching and communicating leads related to the election fraud. There is an abundance of evidence already available. There is a mountain of it yet hidden. The videos that have just now gone public of dominion technicians manipulating data and the new video of suit cases of ballots being pulled from under the table are two of what must be dozens of such videos. I can go on and on.... This note isn't about that. This note is to ask what the hell is going on concerning the Republican Party?!? Where is the support for the president in the halls of the senate and house? Why are the loudest voices so far away from the elected, most powerful voices in Washington? Why are we not running national TV spots in the key states in support of the president with stop the steal message? How are we not demanding that MSM and tech give this fraud the proper attention? Guys, there has been and still is a deliberate effort to alter the 2016 election! It's gotten so bad that half the country lost its constitution right to a fair and free vote. Yet nobody fights. Hell, half the country is living under some form of Marshall law due to the COMMUNIST virus, yet... Nobody fights. Only Trump. Well, behind the scenes know that the businesses being destroyed and the voices being silenced are the very same people who wrote checks for republican candidates this election cycle and every previous cycle. I repeat, the dems have targeted the source of funds for our party. I can tell you that everyone I know is besides themselves w/ what is happening and what is NOT happening. Where is the support for the President? (He's our leader and he's been abandoned). Where is the support for a fair election? (Half the country BELIEVES their votes didn't count yet we have to listen to the bullshit and watch the propaganda spewed forth from MSM and tech). Where is the FBI? (I could make a hundred points here. I don't have the time. The FBI is a DISGRACE). Where is the DOJ? (Same). **** If this continues... the Republican Party is finished. We will lose the working class voters Trump added. We will lose the ability to raise money. Worse, we will have lost all faith in the system. Tom - as Chairman of the NRCC, you have no more important job, in my opinion, than to defend the party. The party is under attack. Mark - the people need to be told what they can do to help. Let's fight like America's future depends on it. Let's not be the generation that sat and watched as America was destroyed by her enemies - foreign and domestic. Please.

Imputation has been done with every Census in modern times. It is considered far more than just adding a few uncounted people. More importantly, the deep state will use it by saying it is a short cut and creates ♦inaccuracy.♦ I think it is a risk worth taking and said this earlier, but we will definitely be sued and likely end up with an injunction and delays. If I knew of a better solution that would avoid that, I would say so. Also, I greatly trust Nathaniel. He has been a huge fountain of knowledge that helped me call out KDK on a lot of this stuff. He is the one who has navigated us to a better place than where KDK was taking us. It is KDK I don't trust. Remember? She wanted this thing to be kicked to April. In the end, firing KDK won't solve this problem either because it is the top career people whom she has entrusted power that need to be replaced, but that is also very fraught with risk.

12/5/2020 5:34	JENKINS WOODY [REDACTED] 433)	Incoming	Message	No	JENKINS WOODY [REDACTED] 1433)	Mark Meadows [REDACTED] 2544)		THE MOST IMPORTANT THING OF ALL ♦ Mark, I would like to advise you in the strongest possible terms as follows: 1. At 12 noon on Monday, Dec. 14, 2020, the electors for President Trump from the states of Arizona, Georgia, Michigan, Nevada, Pennsylvania, and Wisconsin must meet at their respective State Capitols, call themselves to order, elect officers, and cast their votes for President Trump. No action by any court or legislature is necessary. 2. The Chairman and Secretary of the Electoral College from each state must create a certificate indicating their votes cast for President Trump. This certificate must be submitted in accordance with the Constitution. 3. When the House and Senate meet on January 6, the Vice President acting as President of the Senate needs to receive the certificate of the Trump electors as the official electors from that state. 4. If the Senate accepts the Trump electors and the House accepts the Democratic electors from a given state, the Vice President cannot count either set of electors from that state. That number of electors is then subtracted from the number needed to calculate a majority of the Electoral College. Thus if a state has 20 electors and those 20 electors are eliminated, the vote required in the Electoral College to be elected President will be dropped to 260. 5. The Senate must vote to accept the Trump electors in Arizona, Georgia, Michigan, Nevada, Pennsylvania and Wisconsin. Then those states will be eliminated. The remaining states will provide President Trump enough votes to be elected. 6. The key elements are 1) the Trump electors must meet in each state and vote, and 2) the Senate must vote to count the Trump electors from those states. No court victories or state legislative victories are necessary. If there is a federal court challenge to the Vice President's actions, it will fail. The federal courts have no jurisdiction over this. Woody Jenkins, editor Central City News Author, Declaration of Rights, Louisiana Constitution A Loyola Law Review article contemplated much of this and is must reading. See this:

Presidential speech writer. Break glass and use over Emergency Alert System. The speech [directionally] I would deliver if president... on the emergency alert system. ***** Dear fellow Americans: I am communicating with you today over the Emergency Alert System. I am doing so because the vast majority of our country's media companies and technology companies have engaged in an effort to censor my speech and prevent me from talking directly to you. I respect America's powerful and potentially influential news companies have seemingly conspired together and with the Democratic Party to prevent me your president from speaking to you. Whether or not you like me personally or the policies of my administration, you must understand that it is morally inappropriate and quite possibly treasonous for our country's news and technology companies to engage in this type of censorship. I do the same because since I FDR after Pearl Harbor. Today is similarly to that great day of infamy that Roosevelt spoke about on December 7, 1941. America is once again under attack. Not once but by enemy aircraft and within minutes both foreign and domestic entities are attempting to destroy our country's integrity by rigging the election they seek to steal the future of our nation by inserting a new president and a new administration not chosen by the will of the American people. This attack on this rigged election has been orchestrated by regular members of the Democratic Party and their powerful unelected friends in the #swamp who have much control or influence much of America's most powerful institutions, including the FBI, DOJ, the intelligence Agencies. It very likely includes specific and actors from outside the United States. In fact, very likely the fraud includes many of the same participants who have been determined to undermine my presidency since I was elected in 2016. We endured constant and persistent attacks from rogue players loyal to the previous administration who have enriched themselves at the expense of America's national security and on the backs of the American taxpayer. These individuals were and are determined to see me fail so that they can reclaim this country as it belongs only to them and not to all of us. They are more socialist and globalist than they are America-first and their greed and lust for power as such that they are willing to commit treason and undermine the freedom of all Americans - not just the 20% that vote republican. No, their illegal and seditious acts threaten the freedoms of all Americans. I am determined to bring these bad actors to justice. I and my administration are currently following the rules of the constitution created by our wonderful founding fathers in an effort to expose those responsible for the election fraud. We are on a pathway to doing so. We need your support. Simply demand of your elected officials that they initiate an audit of the election in your state. # often said sun right is the best antifragile. Let's allow total transparency to occur around the mysterious anomalies and mathematically impossible results in places like Detroit, Atlanta, Philadelphia, Las Vegas, Milwaukee and Maricopa county. Let's let independent auditors see the aw lots and the voting machines who so many millions and millions of people already believe were manipulated to defraud the voters and cheat the vote in those and other places. Why would any reasonable person fear a fair and independent review of the voter? Nobody would unless they have something to hide. Is that simple. As your president, I can assure you that the vote was polluted by wide-spread fraud of a sorts, it is my sworn responsibility to protect America and keep her safe. That is the number one job of every and all presidents: to keep America safe. I have taken that oath to America and her safety - and I will honor it. Likewise, others in government, law enforcement and our military have sworn similar oaths to our collective safety and I am calling on all of them now: Democrats, Republicans and independents alike, to recall those solemn oaths and stand with me now and help me bring those who seek to destroy us to justice. In closing, to all of you who love America, there will be challenging days ahead. Despite the persistent lies told to you about me by the mainstream media and their countless puppet masters, despite the efforts of Facebook, Google and Twitter to censor me, despite the fact that I am simply a person who loves this country, loves its laws, upholds its aspirations and most important, loves its people. I will fight for America because I love America with my whole being; I will do everything within my power to protect her and to bring to justice those who would hurt her. Thank you and God bless America.

Please help inspire everyone you can reach across America to send the following message, or one similar to it, to their Congressmen & Senators. Thanks! "America's survival as a Republic is at stake. This year, Socialist Democrats exploited numerous systemic election system flaws to engage in massive voter fraud and election theft on an unprecedented scale! Knowing Democrats enacted laws making it ILLEGAL for voter registrars to require proof of citizenship from illegal aliens when they demand to be registered to vote, Joe Biden at the Nashville presidential debate promised over ELEVEN-PLUS MILLION illegal aliens amnesty & citizenship as a reward for voting for Biden. Despite the Constitution's Elections Clause that empowers Congress to set ONE DAY (November 3), with very minor exceptions, as the election day on which to vote (NOT an election week an election month or an election season), Socialist Democrats pushed on an unsuspecting public illegal mass ballot mailing schemes that both clearly violate federal election day law and open up a Pandora's Box of election theft opportunity. 2020 voter fraud examples and election theft schemes are compelling and so overwhelming and numerous as to not be able to itemize them here. I ask, no, I demand, that you, on January 6, formally object to, and vote to reject, the electoral college vote submissions of Nevada, Georgia, Pennsylvania and every other state whose election system flaws render their reported electoral college vote submissions unworthy of support. If you do not join this fight to save America from Socialism, I pledge to you that I will NEVER again vote for you in any primary or general election. If you won't fight for America, I will fight you."

It is former attorney Dever Lantz house. The Buncombe County Sheriffs Office called. There were 67 cars there all with out of state tags. Most of them GA. Shots were fired at the owner when she realized what was going on. The same vans that have been at 904 New Haw Creek Rd were at this house of 67 Panorama Drive. The woman that owns the house owns a realtor company and is furious. They hit her and did 10,000.00 worth of damage to her car and 2500.00 to an Cadillac Escalade. She thought she rented the house to a couple as an Air B and B. There is 911 tapes of the shots being fired. The neighbors called the cops and the owner of the home. When she got there they assaulted her, destroyed her car, and shots were fired. Ballots are in the house according to our source. The BCSO did not go inside and let them all go. Also the neighbor that saw the ballots wants to sign an affidavit that she saw them at the 904 Haw Creek home.

No doubt you are exhausted. Do you have anyone working to tie together all the efforts of the various state legislators challenging the elections? I'm very concerned that there is no coordinated effort among all of them. Yesterday, there was a press conference in Georgia by one state rep and another group was going a petition for a simple majority to call the legislature back in session. In AZ, there was also a press conference yesterday. Last night Texas filed suit. The PA legislature case is supposedly before SCOTUS. I think we desperately need someone who can talk to key state and local elected officials in each state, determine what they are doing and the work to help brief the other legislators around the country (and maybe even within each state) to ensure we have as much coherent messaging as possible between now and Dec 14. We need to let our allies know what is happening so they can tweet, email etc. Is anyone already doing this? Is it something you have a person who could do for the next week? The state legislator in Georgia was working on the simple majority did not make it clear they only needed a simple majority. I saw his petition on Sunday and thought it was a messaging tool more than anything else. I thought it was still going to need a super majority. I only learned it was a more serious effort at 2:20 yesterday. (You could blame me for not doing the math to realize it was a simple majority rather than super majority. I did not. No one highlighted the importance of it.) We lost so much time we could have used to build support here in Georgia. I'm worried that something like that may happen again here or in other states. I don't know legislators in all these states so I could use another point person to help with coordinating them Please let me know who that might be and how I can help. Thank again for all you are doing.

Donald Trump lost New York to Joe Biden by 2 million votes. So he lost California and New York to Joe Biden by a combined 7.1 million votes. He lost nationally to Joe Biden by 7 million votes, subject to any cheating/illegal vote counts. Do the 8th grade math, Donald Trump did not lose the national popular vote to Joe Biden separate of the those two socialist, liberal bastion, disastrous states. They at worst case, tied, again subject to inaccurate vote counts and cheating in swing states. Hardly a national popular vote loss and certainly not an endorsement to replace the electoral college. This dem congressman from NJ has the MSM talking about insurrection... We know the coup is 4 years old. Russia hoax to Impeachment hoax to virus to election fraud. But because the main stream media is now reporting on the Bidens and we all now know that the DOJ, FBI and the dems in congress all knew the impeachment was BS. They kept quiet. But now the people know. Declare the insurrection and name all those party to the impeachment. The impeachment hoax then jumped to the virus and the virus was what led to the election fraud. Make the case the election fraud began with the suppression of the facts during the sham house impeachment (when they hid in basement and interviewed ♦ witnesses♦ in secret. Etc.) Tie this all together. Use insurrection to force a fair and transparent trial. If we have the facts... we win. The whole of the country gets to hear all the facts. If we declare, have a trial and fail to prove the case, we are no worse off than we are now. America will actually be better off because the sunlight will cleanse everything and whoever wins will then hold the moral high ground. My feeling is we can win politically because this guy made the ridiculous claim that protesting the fraud and asking for an investigation is subversion. Crazy. But what they did was to manufacture a whistleblower and witnesses when they knew it was Biden all along. It♦s now in the news. The dems made a mistake bringing this up. Use their mistake against them. It♦s their undoing.

If the affected states, which are controlled by Republicans, presented competing electors and the VP would decide that neither candidate has the requisite 270 electors, then it would go to the House where POTUS would win. POTUS could then say that if the House chooses him, he would resign from office only if appropriate audits and litigation among the 4 states are performed and all illegal votes are thrown out and Biden still has a margin of victory at that point. I seriously doubt Biden would have that margin. On the other hand if the illegal votes are greater than the margin of victory for Biden, POTUS would remain in office. This gives POTUS the luxury of time to let the audits and litigation play out and we know the true results without having to leave office.

Point was not machines in Minnesota! Cheating was by multiple and egregious ballot creation And so in the mail-in voting and ballot harvesting ...!! Not by the machines ! FYI JUST DONT WANT POTUS TO MISUNDERSTAND THAT THE CHEATING WAS FROM ILLEGAL VOTES from harvest and mail in BEST Marty

Strongly recommend Radcliffe put out a statement that it was foreign interference, likely cast of characters is China, Iran and maybe Russia. (unfortunately the media is saying definitively it was Russia but my sources say it is just as likely China- Radcliffe could shed light on this) Our President has been tough on all these nations and we will continue to seek to hold them accountable. You being a man a faith and on the front line of the decisions that are going to be historical! I would ask that you pray for wisdom and discernment from God! You are one of the people the president trusts the most. That being said I want to add my input... Everything Sidney has said is true! We have to get the machines and everything we already have proves the President won by millions of votes! I have read and not validated yet that you and others talked him out of seizing them... If true ... I pray it is part of a bigger plan... I am grateful that on the night of the election the algorithms of the corrupt machines broke and they realized our president would win in spite of the historical fraud! I look for deviations every day in my business ... when I find one I investigate relentlessly until I know why it happened and how it happened... (this is my gift from God that has made my business so successful) From 11:15 pm on the night of the election I have spent all my time running impossible deviations and numbers from this election... I also was blessed to be able to get info and help Sidney Lin General Flynn and everyone else out there gathering all the massive evidence! I have been sickened by politicians (especially republicans) judges, the media not wanting to see the truth (no matter what the truth would be!) This is the biggest cover up of one of the worst crimes in history! I have spent over a million\$ to help uncover this fraud and used my platform so people can get the word not to give up! The people on both sides have to see the truth and when they do there will not be no civil war , people (including politicians!) are fearing! The only thing any of us should fear is fear of the Lord! Every person on this planet needs to know the truth and see the evidence!!! Mark ... God has his hand in all of this and has put you on the front line... I will continue praying for you to have great wisdom and discernment! Blessings Mike

Mo Brooks here. Media is contacting my office about this afternoon's White House meeting regarding formulation of our January 6 strategies. Does the White House want me to reply or be mum? Also, it is one thing to discuss (in general terms) our meeting beforehand. It is another to discuss afterwards. If you believe discussion is a positive, I suggest message should be: 1. Progress is being made. 2. More are joining our fight. 3. We can't allow voter fraud & election theft occur if we are going to be a republic. Your choice. Let me know.

This can be justified due to the 99.8% census completion. It appears to be the only pathway to get the numbers to POTUS and POTUS to Congress by Jan 20th. I asked for a report on likely change in number of congressional seats. As it stands seats will be lost in western and east coast states and gained in the south and midwest. Depending on how you classify states as red or blue, it appears there is a net gain of at least 4 seats to red states.

Tomorrow is a very important day as you may already know. Just making sure it is not overlooked or missed out on (literally) President Trump won and we must fight with every weapon possible. No exceptions who cares what it @looks like the alternative is death to our Republic this is no time to be polite or a gentleman it is time to be a warrior for righteousness. I know when it is stuff like this it gets blocked. That Can't happen. https://nationalfile.com/exclusive-white-house-memo-details-how-pence-card-can-save-trumps-presidency-on-dec-23/ Mark I am praying for you. I don't understand why you disregarded so many of the sourced warnings I gave. I didn't just sound the alarm I told you exactly how to fix it. But regardless I still believe in you. You must fight to make it right!!!! I think you should go back and review my text maybe you were busy maybe you didn't think I was accurate in what I was telling you. But there's way more National Security stuff in there than just the election. Sidney Powell is working the staff we have supplied her with it includes of much of what I had already given to you. US Code Title 10 section 2535 THE LAW! It IS THE LAW for a reason. This isn't about just President Trump elected. By you guys asserting that law you protect the United States from future Election Fraud. Many many of our house and our Senate is currently made up of fraudulent members. Our state government officials Fraudulent. State Secretary of State Fraud @governors fraud. This didn't only affect the presidency it affected the primaries!! The candidate that the people picked didn't even make it into the general election! We don't even have elected officials that were chose by the people. This is disgusting. There has never been more time in the history of this country to use the FULL EXTENT of power of the presidency! These primary results are still available. They are required to be available by law. Nobody thinks you guys are going to go digging into the primaries or the state representation! This is a chance to squash fraud across the nation up route it and restore America. So yes bet you guys better be using a FULL extent of the presidential power not for him but for us!! If you are thinking anything else it's backwards. I'm sorry Mark my country is at risk so I'm gonna call a spade a spade. How will it look like if it @WHO CARES@How looks they doesn't care how it looks to attempt to steal our Country. Bottomline President Trump's executive orders are backed up by THE LAW! And these powers have been used before so it's not setting a precedent. @shame@ NO reason not to do it and EVERY good and righteous reason to use the powers allotted for such a time as this. FIGHT MAN! Mighty men of God! Flip over some tables many lives depended on how w@f you proceed. I pray for a boldness unwilling to come open you in Jesus name. Don't take crap. Promotion comes from the Lord and not from men. Who cares what people think. Decisions made right now reach and eternity. That's why I committed to pray for you. I can guarantee you one thing the president is going to retain the office because it has been ordained by the Lord. The Lord is dear in the word it says those that bless Israel will be blessed and those that curse Israel will be cursed. Our president blessed Israel more than any sitting president. As our representative that means our country is blessed God's world will not return void unto us. So if you don't stand up and do what's right God will just use somebody else. Be strong and be bold in this season walking in the fear of the Lord and not men for the issue of Jesus and Freedom Tom!</p>

Before anything formal is submitted to him, I wanted to get your buy-in. Specifically, I'd like to work in several next week that meet three criteria, with all content embargoed for the book: 1) Our participation can genuinely help shape book coverage about the President's first term and/or 2020 campaign. 2) There's a clearly identifiable strategic consideration involved, whether that's early timing or going on offense where folks might not expect us to. 3) It will be a friendly interview, and POTUS will feel like he's moved the needle. We're ON-AIR on Cox, On Media, Ad Systems and Viamedia local cable systems in these markets: GA: Macon Albany Columbus Savannah Jacksonville Greenville-Spartanburg Augusta Atlanta WI: Madison LaCrosse AZ: Tucson Phoenix Effectv (formerly Comcast) rejected the ads in all systems, and Spectrum has yet to make a final decisions, so we are not on-air in MI other than our national buys, and we're not on Effectv or Spectrum cable systems in WI and GA. All national cable and national/local radio running as scheduled. In terms on gross dollars, we had \$1.6m booked on local cable and right now about \$600K will run, meaning we'll get about \$1M back. Overall the gross placed was \$5.5M, so \$4.5M will clear. Mo Brooks' office since he seems to be the ringleader on the Jan 6th deal. They say they will have as many as 50 members on board 1/6...but we won't have a list of names until Sunday or Monday. This may not surprise you, but no one from the legal team has made contact with them at all. They request examples of fraud, numbers, names, whatever supporting evidence can be provided. We've now supplied that, but our legal squad isn't exactly buttoned up. I bring this up for a simple reason - if we're hoping to move real numbers on the 6th, I think we need to quickly start mobilizing our real-deal allies. These Blue states are hoping to take one of our seats by estimating students who were not at school! Sounds all too familiar. URGENT ASK PER A.G. STEVE MARSHALL! FACTS: Universities closed during census (COVID19). States in NE & Midwest (with big university populations) want students counted at universities using (IN VIOLATION OF LAW) (a) university estimates of their dorm, etc., populations or (b) Census Bureau guesses. This estimate process means students counted TWICE, once at home, once @ university! This double counting, if it adds just enough population shift to add ONE Congressional district to just ONE state, takes ONE district from Alabama. Right now, CENSUS BUREAUCRATS WANT TO DO ABOVE ESTIMATING! TASK: Trump to ORDER Ross to NOT double count students who are NOT living at universities! Trump must order this ASAP, within days, to protect Alabama 7th seat from Census Bureau effort that likely takes our 7th seat from us.

Nor do I think he's grasping the distinction between what certain members are saying that sound like they could help him, but would really hurt him. He's got a very real opportunity for a win in 2024. That opportunity could be harmed in multiple ways this effort.

When I called to tell POTUS about the publicly released Kemp/Collins poll, he asked me to ask Perdue/Loeffler to get on board with the Cruz effort. -Neither appear to be willing to join the effort, and I have not yet communicated this back to POTUS. -Perdue (via Paul Bennecke) gave a weak response that he's no longer a Senator as of noon Sunday. Loeffler (via Ward Baker) gave a weak response that we could discuss it at the rally on Monday. -My concern is that Perdue and Loeffler not being on board with the Cruz effort could become a big rally issue on Monday, and it might be worth your personally prodding both Senators on Sunday to get ahead of it since I got nowhere with their GC's. Thank you, Jason

But I really think this could all backfire badly unless we have legislatures submitting trump slates (based on a conclusion that this was the proper result under state law). Even setting aside constitutional concerns, this will be harmful to the president if we don't channel this effort properly. We simply have no authority to reject a state's certified electoral votes in the absence of a dueling slates, with the Trump slate coming from a state legislative determination.

I wanted to let you know that we're about to publish a story about President Trump's phone call with Sec. Raffensperger yesterday. We have obtained a copy of the audio and will be publishing excerpts. We will note that you were on the call. We will be explaining the nature of the call in a way that does not match the president's description on Twitter this morning. We will also note that legal experts have told us that President Trump's behavior comes very close, if not crossing the line, to attempted criminal conspiracy given his coaching of Mr. Raffensperger on how to change the vote count, find votes, and also given his apparent threats about criminal liability and about the outcome of the two Senate runoffs. The story also notes that you agreed with President Trump's belief that thousands of ballots were cast in the name of dead people, and notes that this is a false assertion for which there is no evidence. Please let me know if you would like to comment before we publish.

David Perdue (R-GA) reaffirmed his support for objecting to the Electoral College certification set to take place on Wednesday. Perdue told Fox News host Maria Bartiromo he supported efforts by U.S. Senate colleagues to object to the certification and encouraged other members to do so as well. ◆ You know, when I first saw the magnitude of the irregularities back in December, early December, about our November race, I called for the resignation of our secretary of state, ◆ he said. ◆ I repeatedly called for a special session of the General Assembly to investigate. None of that happened. And so I started calling out for ◆ the only thing left for the president is for us to object. And I agreed that I would do that. ◆ The technical problem is that I won't be certified until this election is certified some week to 10 days after the election when we win on Tuesday, ◆ Perdue continued. ◆ But I'm encouraging my colleagues to object. This is something that the American people demand right now. You heard in the last segment that there are huge irregularities in Georgia. They need to be investigated. And they need to be corrected, in my opinion. ◆

I read your bulletin on the election and elector issues before the Congress. I believe the underlined above allows you as a sitting US Senator, in fact demands of you, the righteous and constitutional intervention in objection and further study of the 2020 electors and their lawfulness in certain states. You might reconsider your position Senator...! Your following comment in your statement is false, Congress's power is limited to counting electoral votes submitted by the states. NOT TRUE! Congress is the governing body with the authority to object to the states submission if the Congress has a belief that they need to look into the lawfulness of the state election per that states law, therefore the certification and submission of the electors under said state law, could be deemed to lack lawfulness. Tom, that is exactly what the circumstance is in the 2020 election! Multiple states have shown through hearings, citizen affidavits and citizen testimony that the state laws of the election were not followed in multiple states. Therefore the certification of the elector arguably lacks lawfulness. This of course makes perfect sense, as we have an historically, unprecedented 2020 election voting process instituted under the guise of COVID with mail-in and early voting, coupled with rampant unethical soft-money ballot harvesting. This created an election process that was RIPE for state elections violating the lawfulness of their elections and thus their submission of electors candidates must be considered to not met the constitutional requirement of lawfulness, for which the Congress is, and must be the oversight! Tom, fixing this later is not the answer! We need to stop, investigate, and fix it now, or it will never, ever happen! Don't kick the can down the road, while that may feel good now, it's just not the righteous answer. ITS TIME WE FIGHT! WE ALWAYS BACK DOWN, and the libs just giggle at us! We need a commission as Senator Cruz suggests, and we need it fast, and we need it now! Let's chat when you get time. Best Marty Davis

My son wants to go into politics so he might apply for an internship when he graduates. Hope you run for something and he can work with you!

To have him take a shot at me like that in such a public setting without even asking me about it is pretty discouraging.

1/4/2021 23:31	Nayeli Marin [REDACTED] 5011)	Incoming	Message	No	Nayeli Marin [REDACTED] 5011)	Mark Meadows [REDACTED] 2544)		Mark, I was called and informed tonight that now that we are in DRF2 they are finding another set of anomalies (not unexpected) that will take an additional 2 weeks to patch. There is no way to truly determine whether these anomalies are deliberate as there are no politicals at the operational level. We would have needed to start 2 years ago to accomplish putting appointees at that level. We have had a high level person at Data Services admin, connected somehow with OMB, who has consulted with us and he says census has been doing the right thing in dealing with the anomalies. Needless to say, there is no way census will be completed by Jan 20. While forcing census to sprint, I have always been pessimistic that we could accomplish the Jan 20 deadline unless we won the election. Also, judge Koh delayed us and froze our ability to make needed adjustments to speed the process. We have simply been outnumbered and too short of time. We will discuss further in our meeting tomorrow, but I wanted to give you the news ASAP.

But I've been calling state legislators for hours today, and am going to spend hours doing the same tomorrow. I'm trying to figure out a path that I can persuasively defend, and this won't make it any easier, especially if others now think I'm doing this because he went after me. This just makes it a lot more complicated. And it was complicated already. We need something from state legislatures to make this legitimate and to have any hope of winning. Even if they can't convene, it might be enough if a majority of them are willing to sign a statement indicating how they would vote.
